Professional Summary

State Engineer in Computer Systems with a specialization in Full-Stack Development. I bring hands-on expertise in designing secure REST APIs, building modern React.js/TypeScript frontends, and deploying scalable applications in demanding industrial environments (HOLCIM). Proficient in Python (Django, FastAPI), PHP (Laravel), and cloud-native tooling including Docker and the ELK Stack. Autonomous, analytical, and agile-minded, with a strong interest in AI integration and scalable system architecture. Comfortable working in multicultural and international contexts.

Technical Skills

- **Backend** : PHP (Laravel, Symfony), Python (Django, FastAPI), REST API Design, JWT & RBAC Authentication, Input Validation
- **Frontend**: React.js, TypeScript, Vue.js, Tailwind CSS, Bootstrap, HTML5/CSS3, JavaScript ES6+
- **Databases** : MySQL, PostgreSQL, Oracle, MongoDB, Firebase
- **AI & Data** : Data Science Fundamentals, Model Integration, Data Visualization
- **Methodologies** : Agile/Scrum, Jira, UML Modeling, Technical Documentation

Professional Experience

- Full-Stack Engineer — HOLCIM Oujda** End-of-Studies Internship — 2026
- Built and maintained a complete Employee Authorization Management System (Laravel + Vue.js + MySQL) in a 24/7 production environment, featuring automated multi-level workflows and role-based access control (RBAC)
 - Designed and deployed a Weekly KPI Tracking Dashboard using Django, replacing manual Excel reporting with automated data collection and real-time visualization.
 - Containerized the ELK Stack (Elasticsearch, Logstash, Kibana) with Docker to centralize logs, enable real-time system observability, and streamline production monitoring.
 - Led the project's technical architecture: defined modular system design, created UML models, and optimized MySQL schemas for full audit traceability and compliance.
- Front-End Developer — FCPO** Summer Internship — 2024
- Developed reusable e-commerce UI components with React.js and TypeScript, fully integrated with REST APIs.
 - Collaborated in an agile team of 4, reducing data retrieval
- Technical Writer — Alphorm** Freelance — 2024
- Authored technical documentation for 5+ online training courses, improving student comprehension and significantly reducing support ticket volume.
- Full-Stack Developer — SANLAM** End-of-Studies Internship — 2023
- Developed an insured management platform from database to interface (React.js + Laravel + MySQL), featuring secure authentication and RBAC.
 - Implemented and tested secure REST API endpoints with rigorous input validation and access control mechanisms.

Key Projects

- Microservices Architecture — Spring Boot, React + Vite, PostgreSQL, Docker, API Gateway** 2025
- Architected a modular microservices app with an API Gateway managing inter-service communication; containerized 4 independent services for scalable deployment.
- Mugs Atelier – E-Commerce Platform — React.js, Django, MySQL, Tailwind CSS, Jira** 2024
- Full-stack e-commerce platform with order management system, integrating React frontend with Django REST API; managed via Agile sprints in Jira.
- BuildFolio — Spring Boot, React, MySQL, Tailwind CSS** 2023
- Portfolio application with modular REST API backend, secure authentication, and fully responsive React interface.
- Les Douceurs de Maroc — React, TypeScript, Bootstrap** 2023
- Production-ready showcase website with reusable components and full cross-browser compatibility.

Education

Engineering Degree — Computer Systems Engineering (Full-Stack Specialization)	SUPMTI, Oujda	2024–2026
Bachelor's Degree — Computer Systems Engineering (High Honors)	SUPMTI, Oujda	2023–2024
Specialized Technician Diploma — Full Stack Web Development	OFPPT, Oujda	2021–2023
Fundamental Bachelor's Degree — English Studies (Linguistics)	UMP, Oujda	2017–2020

Certifications & Languages

Cisco — IT Customer Support (2026)	Arabic — Native
Cisco — Introduction to Data Science (2025)	French — Fluent
SUPMTI — Soft Skills Workshop (2024)	English — Professional Working Proficiency (C1)
Microsoft — Office Expert Excel/Word (2020)
